

Mahatma Phule Mahavidyalaya, Kingaon

Core Values of the Institution

Contribution to the Five Core Values of NAAC

The college seriously attends the five core values prescribed by the NAAC. It consistently strives to ensure the realization of these core values. It believes that students are the pillars of nation and National development can only be achieved by inculcating. Sound value system promoting technological application in real life and fostering global competencies among students. So, the college desperately and earnestly seek to realize the core values of NAAC through its all round efforts. Our commitment towards these five core values can be put four as below.

1. Contribution to National Development :-

Undertaking the role of quality education in National development, Mahatma Phule Mahavidyalaya, tries its best in contributing substantially to the development of modern and superpower India through effective teaching learning quality research and relevant extension activities thereby producing a skilled human resource rich with external value system and development of students head (imagination), heart (emotional quotient) and hand (entrepreneurship) . It conventionally believes that the development of any national is the development of the citizens of the country. The college is committed to produce a golden touch to the young students to be the responsible citizen and harbingers of national development. So the college conducts innumerable curricular activities to mould the character and personality of the students. Teaching staff of the institute is deeply engaged in spreading update knowledge in their respective subjects.

They are also encouraged and motivated to go for quality and problem solving research that will address the problems of the local masses. Is also undertake various extension activities like NSS camps, blood donation camps, mass awareness rallies thereby purgating the ills and evils of the rural area.

2. Fostering global competencies among students :-

The college does its best in fostering global competencies like softskills quality research entrepreneurship technical skills, career oriented courses maximum utilization and application of ICT in the real life situation and so on. Departments like Commerce, Computer science, Botany actively developed their own career oriented courses like Information Technology, Banking, Sericulture that promote employability of the students. Special programmes like “One Teacher One Skill” was successfully implemented to train students in soft skills and personality development competitive exam and career guidance cell guides students on career options from competitive world like Banking. The college constantly encourages and promotes faculty as well as students in using technology maximum in their real life. So, promoting e-literacy among the faculty and students has believes one of the important concern with the college knowing the role of quality research in building knowledge society, the institute encourages faculty and students undertake quality research, develop research culture and research skills and participate in various research events like National conferences and seminars.

3. Inculcating a value system in students :-

The college believes that external, scientific and pro-humanity value system is a backbone of a well-educated mind. It also realizes that value system is the first and foremost requirement of individual as well as professional success. So it strives to inculcate and imbibe valuable values like excellence / quality secularism, nationalism, patriotism, humanism, scientific point of view character self-esteem, conservation of nature commitment respect for cultural diversity, integrity and other constitutional values. The college has a NSS unit that preaches values like self-reliance, discipline and dignity of work.

The college organizes various programmes like NSS camp, observance of various National and International days as well as birth and death anniversaries of great social reforms and National heroes, mass awareness rallies, blood donation camps, tree plantation organization of street plays and so on. In short, the college leaves no stone unturned to teach human values to students.

4. Promoting use of technology :-

The college is well aware of the latest innovations in science and technology tools in the effective delivery of educational services making teaching learning process more student friendly. The institute is consistently trying to wake up the rural students to the fact that technology is the pass of the new world. So faculties and students are encouraged to employ ICT tools optionally in the teaching, learning and research activities. As a part of this move, the college has fully computerized its administrative office and automated library with software like E-Granthalay with latest configuration. The institute is having in all 14 computers along with LAN faculty. Some of the classrooms and seminar hall employ LCD projectors and laptops in the teaching learning process. Students are promoted to present their seminars using power point presentation.

5. Quest for Excellence :-

The college is sincerely marching towards its estimated goal of Academic excellence as a part of this, the college has shown courage to go for NAAC accreditation in 2017-18. It has launched internal quality assurance cell (IQAC) to sustain and enhance the quality of the institute. It has devised innovative mechanisms like feedback mechanism. Academic calendar, Teaching Plan, Teacher's Diary as a bench marking tools of excellence. The college is always in pursuit of all round excellence in all the works of academia.
